

**TITLE**

**POLYESTERS CONTAINING MICROFIBERS, AND  
METHODS FOR MAKING AND USING SAME**

5

**ABSTRACT OF THE DISCLOSURE**

Polyester compositions comprising microfibers are disclosed. The compositions are made by contacting microfibers with polymerizable components, such as monomers, suitable for making polyesters, and polymerizing the polymerizable components. The microfibers can be provided in the form of a slurry. The microfibers provide improved properties to the polyesters for use in making molded parts, films and fibers.
